# PROFIT PRISM

## Thank you for signing up to access the *Profit Prism Starter Pack!*

As a former schoolteacher, I'm very aware that some people learn and absorb information in different ways. That's why, in addition to the free video lessons, I'm also including this quick checklist overview of what you need to get set up for success in trading the *Profit Prism* way.

When you hear that I've turned \$6,700 into \$25,045... or \$5,000 into \$16,045... and that I did so in a matter of weeks? It's tempting to think that I employ a bunch of complicated, secret strategies that are difficult to replicate.

Truth is: **my trading strategy is really simple.**

If you follow the checklist below, you are going to put yourself on track for a transformational experience in trading penny stocks with the *Profit Prism* strategy - and you're going to put yourself miles ahead of your fellow traders.

Take these one at a time, and then I'll see you at the webinar..

- Register for the *Profit Prism* webinar.** Save your spot now so that you don't miss it, if you haven't already!
- Sign up for your first brokerage account.** I recommend two different services, and you're free to choose which one: Etrade (my preferred choice) and thinkorswim. Check the video lessons to see the difference between the two.
- Lock in a free 1-month trial at Stockcharts.com.** This is not an expensive service, but we're going to use it regularly, so create your account and get familiar with the site right away.
- Play around on Barchart.com as well.** Stockcharts.com is better and more powerful, but it doesn't include a lot of your OTC stocks. Barchart (no "s"! ) comes in handy here.
- Bookmark Finviz.com immediately.** This site is the heart of how I deploy the *Profit Prism* strategy. Play around with it and get familiar with it, because this is how we're going to find the best stocks to trade!
- Watch the *Profit Prism* webinar.** Now that you're familiar with all the major services we'll be using, you can go into the webinar with a clear advantage over your fellow investors who didn't do the "homework"!
